

PROJECT CONCEPTUALIZATION

GROUP-E

1. PROJECT TITLE:

South Saskatchewan Community Foundation Resource hub

2. PROJECT OVERVIEW:

The Saskatchewan Resources Hub will be a central online platform providing Saskatchewan-based charities with vital resources, information, and support services. It will serve as a destination for organizations to access tools, funding opportunities, networking options, and educational materials tailored to their operational needs. The Hub will bridge the gap for non-profits in the province by providing a sustainable and user-friendly solution that supports their day-to-day work and long-term growth.

3. GOALS AND OBJECTIVE

The primary goal is to create a sustainable user-friendly platform where Saskatchewan's charitable sector can find information, tools and necessary connections to enhance their operations and impact.

OBJECTIVES includes:

- Build a user-friendly website that provides resources for the charitable sector in Saskatchewan.
- Provide ongoing support through resources such as grants, events, legal resources and strategic planning tools.
- Ensure the Hub's long-term sustainability and leave room for site growth.

4. PROJECT SCOPE

Project Inclusions:

- Design and development of a website
- Creation of various resource categories (Grants, Events, Business opportunities, Marketing, Storytelling, Governance, Fundraising).
- Ongoing maintenance and updating of content to reflect current needs and resources.

Project Exclusions:

- The platform will not offer direct funding or grants to charities, this is already managed through SSCF.
- The hub will not offer direct operational support but rather provide access to relevant resources.

5. RESOURCES AND FEASIBILITY

- Using WordPress as a resource to make this hub.
- Using resources provided to us by the SSCF.
- This website will be done within the time given.

6. STAKEHOLDERS AND TEAM

- South Saskatchewan Community Foundation (SSCF):

Lead organization and funding partner

- Local Charities:

Target customers of the platform who will benefit from the resources

- Government Agencies:

Potential partner to provide grants, funding and educational content.

- Software Designer:

Build the website, ensure user friendliness, make adjustment base on customers feedback, manage websites updates

7. TIMELINE

- We hope to complete this website within the next few weeks using our time wisely and also refine what we need to.
