Client Check-in

Primary Goal : Create a local charity hub for charities and nonprofits who need additional resources.

Goals :

- keep the hub strictly about charities and nonprofits.

- Make it simple and easy to navigate

- Have a charity list that has links that take users directly to charities websites.

- have pdf's on information to help supplement the charities work.

- The charities are our North Star.

Keep away :

- No donors, donations, granting, etc. It's not our field to do, it's an outcast for this project.

- Keep away from overwhelming things

- Keep away from volunteering. The site is just for something to look at.

Data : Should be simple and easily understood as well as professional.

Design : The design should be easy to navigate, simple, not too overwhelming, etc.
